

Dr. Manuel E. Cornely // Résumé

Prof. hon. (Univ. Puebla)

- 1957 • Born in Cologne (5th December)
High school in Frechen and Kerpen, Germany
- 1978 • Philosophy and medical studies
- 1987 • State examination in philosophy, German language and literature and pedagogy
State examination thesis with Prof. E. Vollrath, Cologne: Medicine and Politics
- 1991 • License to practice medicine
Internship at the St. Katharinen Hospital, Frechen
ward physician specializing in septic surgery
- 1992 • Specialist training as dermatologist at the clinic and polyclinic for Skin diseases
of the Martin-Luther-University, Halle-Wittenberg
- Acquisition of the additional specialization Phlebology
- 1997 • Establishment of the Düsseldorf medical center specializing in skin and venereal
diseases Areas of specialization: phlebology, lymphology, mycology, dermatological
infectious diseases, cosmetic surgery, laser treatments
- since
1997 • Continuous development and optimization of the original method of lipedema surgery:
Prof. Cornely's Lymphological liposculpture™
- 2000 • Founding President of the Professional Association of Lymphologists (BVL)
- 2006 • Honorary professorship of the University of Puebla in honor of achievements
in the field of lymphology
- 2009 • Special consultant for lymphology of the Professional Association of German Dermatologists (BVDD)
- 2013 • Founder and medical director of CG LYMPHA GmbH
Specialist clinic for operative lymphology, Cologne
- 2017 • Establishment of the lymphological research institute Ly.Search GmbH in Cologne

Dr. Manuel E. Cornely // Résumé

Prof. hon. (Univ. Puebla)

„Since 1992, I have been working in the further development of lymphological research.“

Prof. hon. Manuel E. Cornely, M.D., Lymphologist,
Specialist in Dermatology and Venereology

Prof. Manuel E. Cornely, specialist in dermatology and venereology, honorary professor of the University of Puebla for his services in lymphology. Founding President of the Professional Association of Lymphologists.

He has been active in research since 1992. Developed the procedure Lymphological Liposculpture by Prof. Cornely™, initiated the paradigm shift on the previously only conservatively treated disease lipedema through the surgical treatment option.

Prof. Cornely has been operating regularly and continuously on lipedema or lymphedema of the arms and legs since 1997.

With over 20 years of experience in the diagnosis and treatment of lipohyperplasia dolorosa (lipedema) and, as a team, with well over 12,000 operations, Prof. Cornely is highly skilled in the field of resective operative lymphology.

Currently, Prof. Cornely and his medical centers are leading the LIPEG study approved by the Federal Joint Committee of Doctors and Health Insurance in Germany (G-BA: Gemeinsamen Bundesausschusses).

Prof. Cornely lectures at many national and international conferences and congresses, promotes the interdisciplinary exchange of information between renowned specialists and scientists on all aspects of lymphology, with the goal of being able to pursue scientific questions in a bundled and competent manner and to work them up in a goal-oriented manner.
