

CV SUMMARY

Doctorate in Biochemistry with European mention (2005); Doctorate Excellence Award. Dpto. Bioquímica y Biología Molecular (BBM), Universidad Complutense de Madrid (UCM). Supervisors: Dras. R. Rodríguez and M. Villalba. FPU-funded (*MECD, 2001*). Implementation of the component-resolved diagnosis (CRD) concept in allergy. 3-month stay in 2002 with Dr. R. Valenta (*AKH Hospital, Austria*). Solid background in techniques and methodologies related to protein chemistry and Molecular Biology.

Assistant Professor at BBM, UCM (2006-08). I combined my teaching responsibilities with my research duties. Our main finding was to discover the first allergen from olive fruit involved in occupational allergy (*Palomares et al. New Engl J Med 2008*).

Postdoctoral researcher (2008-10). Swiss Institute of Allergy and Asthma Research (SIAF), Davos, Switzerland. Mentor: Dr. C. Akdis. Fulbright-MEC/FECYT Scholarship Program. We showed that tonsils are organs where tolerance induction to allergens occur by generation of FOXP3⁺ Tregs. The quality of these studies was recognized with the 2 most prestigious awards from EAACI and AAAAI to young researchers for scientific trajectories. Solid background in the state-of-the-art techniques and methodologies related to Immunology and great capacity to lead scientific research projects.

Research Associate - Ramon y Cajal Scholar and Group Leader of the Vaccines and Dendritic Cells Lab. at BBM, Chemistry School, UCM (Jan 2012- May 2018). In April 2010, I turned back to my position as Assistant Professor. In January 2012, I obtained a RyC contract at BBM, UCM. Since then, I have obtained public and private funding, which has allowed me to create and consolidate an independent research group (www.oscarnpalomaresgroup.com), twitter: @Palomares_Lab.

Associate Professor at BBM, UCM (June 2018- continue). My lines of research are focused on the study of human DCs and ECs in the context of allergy and other inflammatory conditions to identify novel therapeutic targets for the development of innovative vaccines for allergy and other immune mediated disorders. In June 2021, I was awarded with EAACI PhARF award 2021 during the annual congress in Krakow (Poland) in recognition to my scientific trajectory.
